Cancellations & No-Shows

**When Is A Cancel A Cancel
When Is It A Chargeable No Show
And Other Questions**

If 15 minutes or more have elapsed from time of dispatch and the passenger calls the dispatch office or the car has arrived and the passenger goes out to the driver to tell him that the job is cancelled, that is considered a billable no show. Out of town pick ups where cancellations have been made before scheduled time of pick up, will be charged to the town where the driver has reached before being cancelled.

If we have a phone number: if the driver has not made pick up 25 minutes from the time of dispatch, we will call the passenger, if no contact is made, we will hold the car an additional 5 minutes and then give a no show to the driver. If contact is made and the customer authorizes waiting time, we will continue to wait until the authorized waiting time expires. If no pick up has been made by that time, we will give a no show to the driver.

If we are told to send the car and do not have a phone number: we will hold the car no longer than 25 minutes beyond the pick up time.

To have a car wait longer than our standard time, you must arrange it in advance with the call taker or call us as the situation develops. If you do not and we release the car, you will be charged a no show.

Cars will be held for one half hour after conclusion of an event at a stadium or arena. Drivers are not required to go into restaurants to find the passenger.

A special note for downtown and mldtown pickups: because of traffic enforcement agents and no standing restrictions, drivers are often forced to circle the block. Drivers are considered on time when circling the block. Always check on your car's status if it doesn't arrive at the expected time. If you leave without contacting the dispatch office, you will be billed for a no show.
